

ExpaTek
Expansion Technologies

ExpaTek will enable small and medium-size businesses to access Russian market at an affordable price. We'll do that thru a market expansion program which includes all necessary steps to sell and get settled in Russia. That means you will know where to start, how to proceed and what to comply with here. That includes regulation study, contacts development, advertising, trial sales, business planning and business maintenance. The program is shaped by similar cases of non Russian companies and utilizes our experience of servicing them since 2006. Depending on your budget and needs you can go thru a complete program or utilize its separate steps. Please visit our website to see the terms and decide if that's what you are looking for. If you are just looking for specific business services in Russia, here is what we do well:

- Representation in Russia: sales office, dealer, distributor
- Tenders in Russia: guidance, bidding and application
- Business Plan for Russia: investigation, composition
- Company formation (registration) in Russia
- Bookkeeping and Accounting (taxes) in Russia
- Recruitment in Russia
- Certification in Russia
- Shipping and customs clearance in Russia
